Here's a one-pager for Senator McCain. Jason Brush and I have both reviewed and approved it.

Brent –
Carter is out of the office this morning dealing with a family emergency. I was on leave for a couple hours myself this morning, so just arrived and saw your message. I've asked Jeannie Geselbracht to work with the Wetlands Office to draft a one-pager regarding the status of the NEPA and 404 processes.

Carter -

I received the following request from Nick Matiella in Sen. McCain's DC office and after some discussions with my Office Director, Kelly Zito, who spoke with Teddy Ryerson, the

consensus was that rather than do a conference call, that perhaps you could summarize the status and update in a one-pager that could be reviewed internally by management and then shared with Nick Matiella. Would you be able to put something together in short-order that could then be vetted internally? Nick's request came in while I was out of the office last week, and he is hoping to for an update by the end of the week if possible. I am out of the office on Friday on annual leave and all of next week, so if something could be drafted today, that would be ideal. Please let me know if that might be possible. I am working flexiplace today. Please let me know if you wish to discuss and I can give you a call. Thanks.

Brent

Subject: Rosemont Mine

Hi Brent,

Our office is monitoring the progress of the proposed Rosemont Copper Mine in southern Arizona located on the Coronado National Forest.

Sometime next week, can you provide me with a status update on where EPA is on the permitting and EIS work? Thanks sir.
